Alle ansehen Music Notation 0.6.23 Description of music notation (Package Name: com.philblandford.passacaglia) was developed by Philip Blandford, and the latest version of Music Notation 0.6.23 was updated on May 20, 2017. The notation is in the Music and Audio category. You can check out all apps from the developer music notation. Currently, this app is free. This app can be downloaded on Android 4.0.3 on APKFab or Google Play. All APK/XAPK files are APKFab.com original and are 100% safe when downloaded quickly. WARNING : This app is now overshadowed by Chaconne: can still satisfy you if you have an older, slower device. Music notation and composition apps to compile scores with multiple staves, primarily aimed at tablets, although useful on larger phones. The free version of the demo - it allows you to explore all the features of the app, but you have to purchase the full version to be able to keep your work. This is the first release and doesn't contain all the features that I intend to have, but I believe it has enough functionality to be useful. If it lacks the function you require, or it has an error, please contact me before leaving a negative rating and I will work to fix it. As an individual developer, I don't have the resources to test on all available devices, so your feedback is very important. If you like it, please leave a positive rating - it is very important for the search results and rewarding work I put in, and costs you just a few seconds of your time! Features:- Multiple poles and tools- Flexible, dynamic layout providing characters to make space for each other- zoom and scroll-Tuplets and cross-rhythms-play-select and paste bars, parts of bars or whole ranges- Cancel/Redo- View mode allows you to view the score only on page-ornaments and articulation-Single Grace notes (groups of grace notes to be added in later versions) fermata- Related notes- Change of key, time and key signatures at the beginning or in the middle of the score-repeat bars, DC, Segno, etc. - Hairpin dynamics, Marking- Connection and Irregular Time Signatures- Transpose Part or All Score-Insert Any Tempo or Expression Marking- Changing Tempo at The Beginning of the Score or Mid-Chord Characters:- Save Save Exports to JPG and MIDI (other export options such as XML Music will be added soon) - Autosave Music Music Notation 0.6.23 Update Fix Library issue on Nougat More APK Downloader Music Apps and Audio Music Composer (Full) 1.3.0 1.3.0 / January 20, 2012 cloud_download Download APK file (1.7M) \$0.99 Description of Happy Notes Music Composer provides a fun and ententeive way to create music! It's a simple MIDI music creation app that lets you play the improvisational piano and compose a musical composition just by gliding across your device's screen. Tap and slide with one or two fingers to play and create a melody with concomitant harmony for your original musical composition. Your composed music automatically records on two midi filefor easy music noting and mixing tracks. Feel free to try the free version of Lite (not export MIDI) thisapp! This music creation app is definitely useful for serious musiciansand composers who may need a bit of musical inspiration... But it's also an interesting and intriguing way to experiment with music that has the potential to impress friends and family! It will also impress children who love touching objects that will shine and play music! Check out Youtube below for a demonstration of this musicgenerator application.Features Finger Track Discs light up and follow your movements on the screen Multi-touch supported (one or two fingers can playsimultaneously) Polyphony (melody and harmony) In real time plays piano music based on the piano based on Your Finger Movement between 30 and 240 BPM' Music is stored in MIDI format and exported to SD cardautomatically, MIDI files are stored in a two-room format for easy editing and mixing melody and harmony separately into your project When the app launches generated a random sequence of chords. During a music creation session, the note pitches on the screen arederived from this set of chords. The game with one finger will work on the most devices. Also, on some phones, playing with two fingerssimultaneously sometimes leads to a hooking phenomenon where track drives snap and align on a horizontal or vertical axis. This is a hardware problem specific to your Android device and cannot be attributed to this app. Despite this problem, this is only a minor obstacle in achieving the full functionality of this software.
